

Sontara®

Consistently Clean and Exceptionally Absorbent

Sontara® Aerospace Grade Wipes are great for wiping surfaces dry, cleaning hard-to-reach crevices, and for use on metal parts and corners because they are specially engineered to resist snagging.

Benefits

PURE

Exceptionally clean — no binders, chemical residue, contaminants or metal shavings that can result in surface damage or rework.

HIGH ABSORBENCY SPEED

Higher absorbency rate to complete wiping jobs faster.

LOW LINTING

Low-lint performance helps to minimize defects and contamination.

HIGH STRENGTH

Durable — high strength fiber blend makes Sontara® Aerospace Grade Wipes less likely to snag on metal parts and sharp corners.

SOLVENT RESISTANT

Tackles isopropyl alcohol, MEK, MPK and other aggressive solvents without falling apart.

HIGH ABSORBENCY

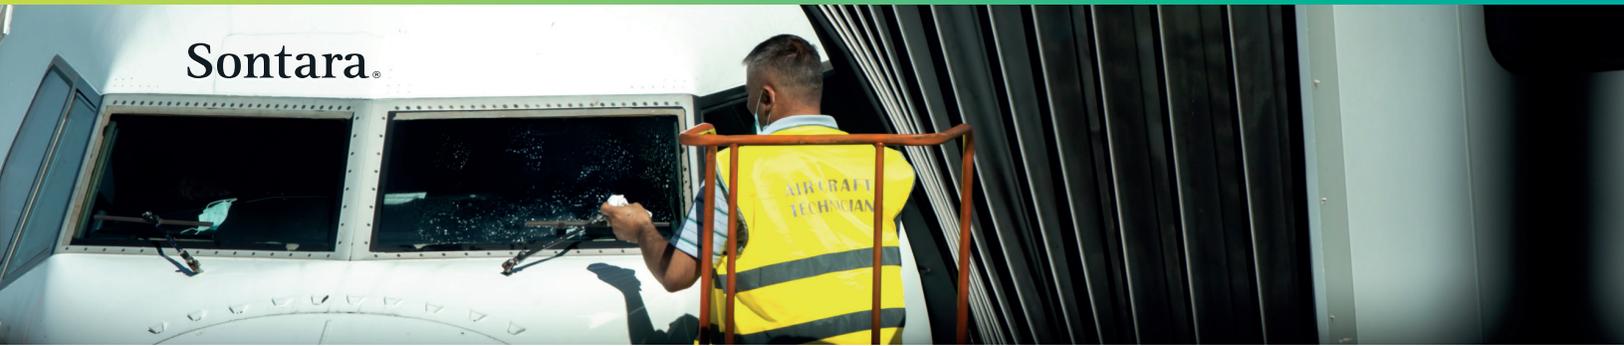

Very absorbent — reduces the number of wipes needed to complete the task, reducing cost and waste.

Sontara® Aerospace

Sontara® Aerospace Wipes meet the Aerospace Material Specification AMS 3819*, Class 2, Grade A requirement

*Updated to the latest version.
